P.190/17

Hon. Rohini Kumari Wijerathna, - Formulating a Methodical Course of Action to uplift Pre-School Education,— As there seems to be an element of degradation in children's personality development, value structure and fundamental educative streamlining in early childhood development due to lack of proper standard and methodology in running early childhood development centres, which are the foremost places for the creation of perfect individuals useful for the country, despite the presence of a large number of such centres throughout the island, this Parliament resolves that a proper course of action be formulated to uplift preschool education by making available the necessary physical resources at the early childhood education centres, by appointing qualified pre-school matrons, by sending them for training courses with a view to ensuring the quality of the educative process and by ensuring their job security through specified salaries / allowances.
