Department of Excise was able to increase the excise income up to Rs. 120.7 Billion by 14% in the year 2016 compared to Rs.105.9 Billion of income reported in the year 2015. Revised income estimate of the year 2016 was Rs.125 Billion. Estimated excise income could not be realized due to the impact of instant hike in liquor prices attributed to the increase of Excise duty twice by the end of year 2015 (Table 8.22), temporary cease of production in one of the leading malt liquor (beer) brewery for five months from June 2016 due to floods (Table 8.2 and Graph 8.4) (said brewery brought in a monthly excise duty over one million each month from January to June 2016) and the decrease in liquor production owing to hike in prices due to imposing a 15% VAT on

liquor at the end of the year.

Hard liquor production has increased up to 55.5 million proof litres by 7.4% in the year 2016 compared to 51.7 million proof litres of production reported in 2015 as a result of the control over excise duty unpaid foreign liquor by introducing a new excise duty on imported foreign liquor as well as imposing limits on liquor transportation and by conducting special raids to control unlawfully manufactured liquor (Kasippu). Thus, Department of Excise has been able to secure the third place among the government income generating departments by raising the excise income up to Rs.120.7 billion in the year 2016 compared to the year 2015.
